Plant and Soil **135**: 313–315, 1991.

Contents of Volume 135 1991

Volume 135, No. 1

W. L. Pan, B. A. Tillman and S. E. Ullrich, Ammonium and nitrate uptake by barley genotypes in diurnally fluctuating root temperatures simulating till and no-till conditions 2
W. L. Pan and A. G. Hopkins, Plant development, and N and P use of winter barley. I. Evidence of water stress-induced P deficiency in an eroded toposequence 9
W. L. Pan and A. G. Hopkins, Plant development, and N and P use of winter barley. II Responses to tillage and N management across eroded toposequences 21
S. A. Materechera, A. R. Dexter and A. M. Alston, Penetration of very strong soils by seedling roots of different plant species 31
F. G. Adriaanse and J. J. Human, The effects of nitrate: ammonium ratios and dicyandiamide on the nitrogen response of *Zea mays* L. in a high rainfall area on a acid soil 43
J. A. Thompson, A. Bhromsiri, A. Shutsrirung and S. Lillakan, Native root-nodule bacteria of traditional soybean-growing areas of northern Thailand 53
W. M. W. Othman, T. A. Lie, L. 't Mannetje and G. Y. Wassink, Low level phosphorus supply affecting nodulation, N_2 fixation and growth of cowpea (*Vigna unguiculata* L. Walp) 67
C. T. Pedersen, G. R. Safir, S. Parent and M. Caron, Growth of asparagus in a commercial peat mix containing vesicular- arbuscular mycorrhizal (VAM) fungi and the effects of applied phosphorus 75
C. L. Wyman-Simpson, G. R. Waller, M. Jurzysta, J. K. McPherson and C. C. Young, Biological activity and chemical isolation of root saponins of six cultivars of alfalfa (*Medicago sativa* L.) 83
N. Villeneuve, F. Le Tacon and D. Bouchard, Survival of inoculated *Laccaria bicolor* in competition with native ectomycorrhizal fungi and effects on the growth of outplanted Douglas-fir seedlings 95
Y. M. Barnet and P. C. Catt, Distribution and characteristics of root-nodule bacteria isolated from Australian *Acacia* spp. 109
C. Rodríguez-Barrueco, E. Cervantes, N.S. Subbarao and E. Rodríguez-Caceres, Growth promoting effect of *Azospirillum brasilense* on *Casuarina cunninghamiana* Miq. seedlings 121
U. Schmidhalter and J. J. Oertli, Transpiration/biomass ratio for carrots as affected by salinity, nutrient supply and soil aeration 125
J. I. Freijer and W. Bouten, A comparison of field methods for measuring soil carbon dioxide evolution: Experiments and simulation 133
T. Singh Gahoonia and N. E. Nielsen, A method to study rhizosphere processes in thin soil layers of different proximity to roots 143
J. W. G. Cairney and A. E. Ashford, Release of a reducing substance by the ectomycorrhizal fungi *Pisolithus tinctorius* and *Paxillus involutus* 147

Volume 135, No. 2

A. Galiana, A. Tibok and E. Duhoux, In vitro propagation of the nitrogen-fixing tree-legume *Acacia mangium* Willd. 151
A. Galiana, A. Tibok and E. Duhoux, Nitrogen-fixing potential of micropropagated clones of *Acacia mangium* inoculated with different *Bradyrhizobium* spp. strains 161
F. Weissen and H. J. van Praag, Root growth inhibition effects of holorganic moder humus layer under spruce (*Picea abies* KARST.) and beech (*Fagus sylvatica* L.). I. Field observations and growth chamber experiments 167
H. J. van Praag, J. C. Motte, X. Monseur, J. Walravens and F. Weissen, Root growth inhibition of the holorganic layer of moder humus under spruce (*Picea abies* KARST.) and beech (*Fagus sylvatica* L.). II. Biological test and organic analysis of the soil solution 175
J. S. Bailey, A re-examination of phosphorus-lime interactions in perennial ryegrass 185
M. Schenk, B. Heins and B. Steingrobe, The significance of root development of spinach and kohlrabi for N fertilization 197
B. Steingrobe and M. K. Schenk, Influence of nitrate concentration at the root surface on yield and nitrate uptake of kohlrabi (*Brassica oleracea gongyloides* L.) and spinach (*Spinacia oleracea* L.) 205
K. F. Nieto and W. T. Frankenberger Jr., Influence of adenine, isopentyl alcohol and *Azotobacter chroococcum* on the vegetative growth of *Zea mays* 213
F. J. Osuna-Canizalez, S. K. de Datta and J. M. Bonman, Nitrogen form and silicon nutrition effects on resistance to blast disease of rice 223
J. J. San José and C. R. Bravo, CO_2 Exchange in soil algal crusts occurring in the trachypogon savannas of the Orinoco Llanos, Venezuela 233
T. R. McDermott, P. H. Graham and M. L. Ferrey, Competitiveness of indigenous populations of *Bradyrhizobium japonicum* serocluster 123 as determined using a root-tip marking procedure in growth pouches 245
F. Barro, A. G. Fontes and J. M. Maldonado, Organic nitrogen content and nitrate and nitrite reductase activities in tritordeum and wheat grown under nitrate of ammonium 251
E. Cueavas, S. Brown and A. E. Lugo, Above- and belowground organic matter storage and production in a tropical pine plantation and a paired broadleaf secondary forest 257
J. Arines and A. Vilariño, Growth, micronutrient content and vesicular-arbuscular fungi infection of herbaceous plants on lignite mine spoils: A greenhouse pot experiment 269
B. Politycka and D. Wójcik-Wojtkowiak, Response of sweet pepper to phenols accumulated in greenhouse substrate 275

Short communications

M. J. Krogmeier, G. W. McCarty, D. R. Shogren and J. M. Bremner, Effect of nickel deficiency in soybeans on the phytotoxicity of foliar-applied urea 283
R. H. Teyker, H. D. Hoelzer and R. A. Liebl, Maize and pigweed response to nitrogen supply and form 287
P. S. Sandhu, K. K. Dhingra, S. C. Bhandari and R. P. Gupta, Effect of hand-hoeing and application of herbicides on nodulation, nodule activity and grain yield of *Lens culinaris* Med. 293
